Claims 1-18 are pending in this application. This office action is in response to the Appeal Brief filed 8/22/2006. In light of applicant's detailed arguments, all previous rejections are removed and this case is in condition for allowance.

3. Referring to independent claims 1, 8, and 15, while Dietrich in view of Horejsi (as used in the previous rejection) shows providing a rework bill of materials flow for use in production planning management, neither of these references taken alone, together, or in combination with the prior art of record disclose "applying the rework parametric information to the at least one rework bill of materials flow resulting in a manufacturing plan for rework operations" or "generating a manufacturing plan that includes the manufacturing plan for rework operations and the other Bill of Materials flow". It is these phrases of the claim and the applicant's arguments regarding these phrases as filed in the appeal brief (specifically pages 8-10), in combination with the remaining elements and features of the invention, that the applicant's invention defines over the prior art of record.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
